To Our Customers:

From February 1st and during the prevailing high prices of imported feeds and bottles the following prices of milk will be in effect:

Quarts delivered
13 cents
Pints Delivered
7 cents

At the present time the supply of milk scarcely fills the demand and to keep our first-class dairymen in business and insure a future supply of high grade pasteurized milk this advance is necessary.

'LEI DAY' LATEST PROPOSAL MADE FOR CARNIVAL

"Lei Day," something typical of Hawaii, is to succeed "Tag Day" in Honolulu for the purpose of raising funds for community enterprises if the suggestion of L. E. Davis to the Carnival directors meets with general approval. Davis, who is chairman of the Carnival decoration committee, proposes that Saturday, February 18, be designated as Lei Day and that every visitor and resident be urged to buy a lei on that day to be worn throughout Carnival week.

He advises the Carnival directors to get the various women's clubs of the city interested in the sale of the leis and that the funds derived from the sale be divided equally between the clubs and the Carnival fund. His proposal contains the suggestion that leis of the Carnival colors, yellow and green, be sold, which can be worn either around the neck, on hats or as boutonnieres.

"Buy a lei and get the Carnival spirit," Davis says should be the slogan for Lei Day. "Wearing a lei is one of the pretty and attractive customs of the Hawaiians. During Carnival week everyone should be induced to follow the custom. If they did so, everyone would soon get the Carnival spirit and Honolulu's February festival would become as famous as a 'fun event' as the Mardi Gras of New Orleans, he thinks.

At least one of the Carnival directors, Emil Berndt, believes that Davis' proposal of a Lei Day sale should be approved. The suggestion is to be considered at the next meeting of the Carnival directors, when it will be determined if the cooperation of the Honolulu club women can be secured.

NOT A PARTICLE OF DANDRUFF OR A FALLING HAIR

Save Your Hair! Double Its Beauty in Just a Few Moments

25-cent "Danderine" Makes Hair Thick, Glossy, Wavy and Beautiful

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.

LEVINSKY-MOHA BOUT
IS A 12-ROUND DRAW

YOUNGSTOWN, O., Jan. 17.—"Battling" Levinsky and "Bob" Moha went 12 rounds to a draw here tonight. While it is possible that Levinsky had the best of a number of rounds, the effectiveness of Moha in several rounds offset what had been gained.

It was a real give and take affair, with the "Battler" having the better of weight and reach. There was not a knockdown, but the fighters frequently brought the crowd to their feet.

TALK ON SUGAR IS MUCH ENJOYED

It was sugar night at the Royal Hawaiian Opera House Monday. Hundreds who knew little of what became of the sugar that is ground in these islands until it has reached pantry or table are now familiar with its history in the intermediate stages, the processes that lead up to its readiness for those purposes as a result of what they saw and heard last night.

To hear George M. Rolph, general manager of the California and Hawaiian Sugar Refining Company, and to see the pictures which he brought showing Crockett, the refinery and the work that goes on in the refinery, Honolulu crowded the Opera House Monday night and were well rewarded for the evening was as enjoyable as it was instructive, the moving pictures showing sugar handling and processes in detail from the time it left the hull of the Matsonia until it had been loaded, as refined product, into freight cars and was speeding eastward over the rail. Bubbling, boiling syrup was pictured and so were sparkling, shining crystals, fine granules and blocks or lumps.

Speaker J. W. Waldron introduced George M. Rolph as one who did not really need an introduction, as he who had frequently resided here and was known to many in the audience and especially to the business world as the first secretary of the Sugar Factors.

Rolph at once caught his audience with the charm of his personality. He briefly told of the building of the Crockett plant in 1881 as a flour mill and its failure; its reopening by Col. Z. S. Spalding as a sugar mill and of further ups and downs until finally it came to its splendid present efficiency.

Refines People Also
The first part of the picture program consisted of views of Crockett and what the company has done for the town in schools, playgrounds, Y. M. C. A. clubs and in general to work that has been and is being done sociologically, in refining people, as well as in refining sugar.

Next came reel after reel of pictures showing the processes through which the sugar goes. Its unloading, weighing, testing, transportation to warehouse, to vats, treatment from then on until bagged, barreled, boxed or put in cartons, loaded on freight cars or river steamers and actually in transit to market. And from time to time Rolph would intersperse an explanatory remark or two that essentially added to the interest.

Pictures Tell Story Well
While many parts of the processes involved were difficult to show in pictures, yet there was so much that was possible and was well shown that the evening became one more full of interest and enjoyment and equally as instructive. If not more so, than it would have been without the pictures. These pictures were taken for the department of commerce and will be shown later to as many as a million people a month.

Manager Rolph left for the mainland today, having completed the business which brought him here, the arrangement for the enlargement of the Crockett refinery.

JUNGLE GROWING HERE IN TOWN, SAYS GLUUD

"People visiting Honolulu don't need to go out into the mountains to find jungles," humorously remarked Chief Clerk Frederick Gluud of the national guard headquarters this morning. "There's jungle enough right on the sidewalk along the Oahu Flower Gardens, King street."

Gluud says that weeds and grass have grown up over the area where people are supposed to walk, almost waist high now, and that when a rainy day comes travelers cannot get through without detriment to their clothing and their tempers. Something should be done, he says, to put the place in proper shape.

KILLS BUSINESS Foe AND ENDS LIFE ON KENTUCKY TRAIN

HAZARD, Ky.,—C. C. Huddleston, manager of the Huddleston Lumber & Supply Company of Huntington, W. Va., was shot to death aboard a train moving through a tunnel near here. R. B. Franklin, a contractor of Whitesburg, Ky., who shot Huddleston, then turned the gun on himself, committing suicide. A business quarrel led to the tragedy, it is reported.

Nearly 1000 varieties of rice have been identified in the Philippines by government scientists.

Seventy-five per cent of the women employed in the German metal trades work 10 hours or more a day.

TYREE'S ANTISEPTIC POWDER
Catarrhal and Infected Conditions of the Mucous Membrane

OLD FOLKS NEED 'CASCARETS' FOR LIVER, BOWELS

Salts, Calomel, Pills Act on Bowels Like Pepper Acts in Nostrils

Enjoy Life! Don't Stay Bilious, Sick, Headachy and Constipated

Get a 10-cent box now. Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

All old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Adv.

CUTLERY HOSPITAL

Shears, Razors and Safety Blades cured of that dull feeling. Fat Razors made thin by our grinding treatment. Safety blades treated to mow down hair and stumps. All operations performed by expert grinding surgeon.

CARL MILLER, 1125 Fort, the only practical grinder in Honolulu.—Adv.

During the past fiscal year there were constructed on the national forests 227 miles of new roads, 1975 miles of trails, 2124 miles of telephone lines, 89 miles of fire lines, 31 lookout structures, 40 bridges, 222 miles of fence, 545 dwellings, barns and other structures, 17 corrals and 292 water improvements.

COLORADO GAINS 8367 MILES NEW ROADS IN 1916

DENVER, Colo.—In the year 1916 8367 miles of new highway were built in Colorado. Reports which have been received by T. J. Ehrhart, state highway commissioner, from all districts of the state show that there are 49,067 miles of finished highway in the state today as compared with 32,000 miles in 1915.

The dry season range of temperature in Cuba is from 60 to 85 degrees.

Working women in Pennsylvania's industries are paid almost \$25,000,000 a year.

Four thousand employees at the Springs Cotton Mills at South Carolina have been given a 10 per cent increase in wages.

Every Businessman will realize the need of a Y.W.C.A. Swimming Club at Waikiki.

After a hard day of work, there seems to be no recreation quite so fine and restful as a dip in the surf.

Mayme Nelson,

President Honolulu Business Girls' Club, Says:

For fun, for fellowship, for food, for exercise, for duty, and for spiritual development the Young Women's Christian Association is meeting the needs of business women in a most satisfactory manner.

The \$1500 needed for this Beach Club House is but a small part of the estimated deficit for 1917, however. The budget for the coming year needs some \$17,000 more than estimated receipts, to care properly for the increased growth in every department, and to pay off the building debt.

You may send in your subscription by mail if you wish. Address the

Businessmen have plenty of opportunity for this recreation, but for thousands of girls and women there is no way but to go to the public bath houses, in order to enjoy the exercise and the jolly fun of a swim at Waikiki.

These conditions make beach bathing not only expensive, but in view of the promiscuous associations, even objectionable.

The Y.W.C.A. Club house at Waikiki

will provide the girls and women who wish to make use of the privileges, private accommodations and a private stretch of beach at very reasonable cost. Rates will cover the cost of the ground lease and other running expenses, but—

\$1500 is Needed to Build and Equip the Club house

Besides the swimming facilities, this project will afford a place for members to entertain, inexpensively, at tea or otherwise.

There will also be tennis courts.
